The agency within the Department that has responsibility specifically for licensed and unlicensed psychotherapists is the Department of Regulatory Agencies, Mental Health Section, 1560 Broadway, Suite #1370, Denver, Colorado 80202, (303) 894-7766.
3. Client Rights and Important Information:
You are entitled to receive information from me about my methods of therapy, the techniques I use, the duration of your therapy (if I can determine it), and my fee structure. Please ask if you would like to receive that information.
 - i. You can seek a second opinion from another therapist or terminate therapy at any time.
 - ii. In a professional relationship (such as ours), sexual intimacy between a therapist and a client is never appropriate. If sexual intimacy occurs, it should be reported to the Department of Regulatory Agencies, Mental Health Section.

- iii. Generally speaking, the information provided by and to a client during therapy sessions is legally confidential if the therapist is a licensed marriage and family therapist, a licensed social worker, a licensed professional counselor, a licensed psychologist, or an unlicensed psychotherapist. If the information is legally confidential, the therapist cannot be forced to disclose the information without the client's consent. Information disclosed to a licensed marriage and family therapist, a licensed social worker, a licensed professional counselor, a licensed psychologist, or an unlicensed psychotherapist is privileged information and cannot be disclosed in any court or competent jurisdiction in the State of Colorado without the consent of the person to whom the testimony sought relates.

4. Hypnosis is not a state of sleep, but is a natural state of mind that can produce extraordinary levels of relaxation of mind, body and emotions. The principles and theories upon which hypnotherapy is based are accessing and utilizing the power of the Client's inner resources. Hypnosis can transcend the critical, analytical level of mind, and facilitate the acceptance of suggestions, directions and instructions desired by the Client. The therapeutic use of Hypnosis can also elicit information and insights from the inner mind. The hypnotherapist utilizes interviews, discussion and hypnotic methods dealing with underlying issues whenever appropriate, with the goal to achieve effective and lasting results. Services to be provided do not include the practice of medicine, as Hypnotherapist is not a licensed physician. These services are non-diagnostic, and are complementary to the healing arts services that are licensed by the State. The primary purpose of licensing laws for legally defined Healing Arts and Mental Health professionals is to protect public health and safety. Accordingly, Hypnotherapists are not issued licenses by any State Government Agency to engage their professional services.
